Board of Directors Meeting + Rule Presentations + Officer Applications

Ryan Li

Editor in Chief: Ryan Li
Editor in Charge: Joseph Lee
Editor: Angela Zhang

At the beginning of this month, the STEMBoost Officer Team met with the STEMBoost Board of Directors at Regnart to reflect on the previous year's work, and discussed what changes can be implemented next year to better improve the efficiency and cohesiveness of the organization.

In addition, the STEMBoost Officer Team has been putting on virtual rule presentations for the Kennedy Science Olympiad teams, with Mission Possible, Road Scholar, Codebusters, Dynamic Planet, Crime Busters, and Write it, Do it being presented already. We would like to thank Andrew Zhou, Amol Rama, Iona Xia, and Ishanvi Kommula for taking charge of the presentations in September. These rule presentations will continue on into October, with all of them occurring over Zoom.

Last but not least, new officer applications for the upcoming school year are now open! Officer positions and recommended skills can be found on the spreadsheet linked on the google form application, and the application will close the weekend of 10/9-10/10. If you are interested in taking a part in helping out STEMBoost and giving back to Science Olympiad, this is a great opportunity for you to do so.

Fun Fact

How many messages can the human brain take every second?
(See answer in the back)

Answer: The human brain takes in 11 million bits of information every second but is aware of only 40.
